Project Overview

We are developing a modern, scalable, and secure **Marketing Application** to help businesses manage marketing campaigns, leads, customer engagement, and analytics from a single platform. The application should be responsive, user-friendly, and built using the MERN stack (MongoDB, Express.js, React.js, and Node.js).

Technical Requirements

- Develop using **React.js** for the frontend.
- Develop using **Node.js & Express.js** for the backend.
- Use **MongoDB** as the database.
- Implement RESTful APIs.
- Follow a modular and scalable architecture.
- Write clean, maintainable, and well-documented code.
- Implement proper error handling and logging.
- Dockerize the application for deployment.
- Maintain the source code using Git.

Authentication & User Management

- User Registration
- User Login

- JWT Authentication
- Role-Based Access Control (RBAC)
- Email Verification
- Forgot Password
- Reset Password
- Change Password
- User Profile Management
- Session Management

Roles

- Super Admin
 - Admin
 - Marketing Manager
 - Sales Executive
 - Viewer
-

Dashboard

Display the following metrics:

- Total Campaigns
- Active Campaigns
- Total Leads
- Qualified Leads
- Conversion Rate
- Marketing Spend
- Revenue Generated
- Return on Investment (ROI)
- Recent Activities

- Upcoming Campaigns
 - Notifications
 - Performance Charts
-

Campaign Management

- Create Campaign
- Edit Campaign
- Delete Campaign
- Pause Campaign
- Resume Campaign
- Schedule Campaign
- Campaign Status Management
- Campaign Budget Management
- Campaign Objectives
- Campaign Attachments
- Campaign Notes

Supported Campaign Types

- Email Campaign
 - SMS Campaign
 - WhatsApp Campaign
 - Facebook Campaign
 - Instagram Campaign
 - LinkedIn Campaign
 - Google Ads Campaign
 - Offline Campaign
-

Lead Management

Maintain complete lead information including:

- Lead Name
- Email Address
- Mobile Number
- Company Name
- Designation
- Industry
- Lead Source
- Assigned Sales Executive
- Lead Status
- Follow-up Date
- Notes
- Activity Timeline

Lead Status

- New
- Contacted
- Qualified
- Proposal Sent
- Won
- Lost

Contact Management

- Add Contact
- Edit Contact

- Delete Contact
 - Import Contacts (CSV)
 - Export Contacts (CSV/Excel)
 - Duplicate Detection
 - Contact Tagging
 - Customer Segmentation
 - Contact Activity History
 - Advanced Search & Filters
-

Audience Segmentation

Allow segmentation based on:

- Location
 - Age
 - Gender
 - Customer Type
 - Purchase History
 - Campaign Engagement
 - Interests
 - Tags
 - Custom Filters
-

Email Marketing

- Email Template Builder
- Rich Text Editor
- Drag-and-Drop Email Builder
- Bulk Email Sending

- Email Scheduling
 - Personalization
 - Open Tracking
 - Click Tracking
 - Bounce Tracking
 - Unsubscribe Management
 - Delivery Reports
-

SMS Marketing

- SMS Templates
 - Bulk SMS
 - Scheduled SMS
 - Personalized SMS
 - Delivery Reports
 - SMS Logs
-

WhatsApp Marketing

- WhatsApp Templates
 - Broadcast Messaging
 - Scheduled Messages
 - Media Sharing
 - Delivery Status
 - Read Receipts
 - Conversation History
-

Social Media Management

Support integration with:

- Facebook
- Instagram
- LinkedIn
- X (Twitter)
- YouTube

Features:

- Create Posts
 - Schedule Posts
 - Draft Posts
 - Calendar View
 - Engagement Analytics
 - Performance Reports
-

Landing Page Builder

- Drag-and-Drop Builder
 - Responsive Templates
 - SEO Settings
 - Custom Domain Support
 - Form Integration
 - Analytics Tracking
-

Form Builder

Create:

- Contact Forms
- Lead Forms
- Newsletter Forms
- Registration Forms
- Feedback Forms

Features:

- Custom Fields
- Validation Rules
- CAPTCHA
- Email Notifications
- Webhooks

Marketing Automation

Support workflow automation such as:

- Welcome Emails
- Lead Assignment
- Follow-up Reminders
- Status Updates
- Email Automation
- SMS Automation
- WhatsApp Automation
- Trigger-Based Workflows

CRM Features

- Deal Management
- Sales Pipeline

- Opportunity Tracking
 - Activity Timeline
 - Customer Notes
 - Lead Conversion
-

Analytics & Reporting

Provide reports for:

- Campaign Performance
- Lead Sources
- Email Analytics
- SMS Analytics
- WhatsApp Analytics
- Revenue Reports
- ROI Reports
- Conversion Reports

Export Options:

- PDF
 - Excel
 - CSV
-

Task Management

- Create Tasks
- Assign Tasks
- Set Priorities
- Due Dates
- Comments

- Attachments
 - Task Status
-

Calendar

Display:

- Campaign Schedule
 - Meetings
 - Follow-ups
 - Social Media Posts
 - Tasks
 - Events
-

Notifications

Support:

- In-App Notifications
 - Email Notifications
 - SMS Alerts
 - Push Notifications
-

File Management

- Upload Files
 - Download Files
 - Delete Files
 - Image Management
 - Document Storage
-

Team Management

- Invite Team Members
 - Assign Roles
 - Manage Permissions
 - User Activity Logs
-

AI Features (Optional)

- AI Email Generator
 - AI Social Media Caption Generator
 - AI Marketing Content Generator
 - AI Lead Scoring
 - AI Campaign Recommendations
 - AI Performance Insights
-

Integrations

Support integration with:

- Google Analytics
 - Google Ads
 - Meta Ads
 - WhatsApp Business API
 - SMTP Email Services
 - Payment Gateways
 - CRM Platforms
-

Security Requirements

- JWT Authentication
 - Password Encryption (bcrypt)
 - Input Validation
 - Role-Based Authorization
 - Rate Limiting
 - Audit Logs
 - HTTPS Support
 - Secure API Endpoints
-

Deployment Requirements

- Docker Support
 - Docker Compose Configuration
 - Environment Variables (.env)
 - Production Build
 - Automated Backup Strategy
 - Logging & Monitoring
 - API Documentation
 - Installation Guide
 - User Documentation
-

Deliverables

- Complete Source Code
- Frontend Application
- Backend APIs
- Database Schema
- API Documentation

- Docker Configuration
- Deployment Guide
- Test Cases
- User Manual
- Administrator Manual
